PROFESSIONAL SUMMARY

Entry-level Software Engineer and Computer Science graduate with hands-on experience in Python development, machine learning, cloud computing, web development, and full-stack web development. Built AI and software projects including a speech-to-text transcription system and an accident detection platform. Internship experience in AWS cloud operations and deployment monitoring. Strong problem-solving and software engineering skills. Willing to relocate and actively seeking software engineering opportunities.

TECHNICAL SKILLS

Python, Java (Fundamentals), C, OOP, Data Structures, Algorithms, TensorFlow, NumPy, Pandas, AWS EC2, AWS S3, IAM, CloudWatch, Git, GitHub, Flask, HTML, DBMS, Operating Systems, Computer Networks.

EXPERIENCE

Cloud Computing Intern | Orionshift, Chennai | Jul 2025 – Aug 2025

Managed AWS EC2 and S3 services, monitored cloud resources using CloudWatch, and supported deployment and infrastructure operations.

Web Development Training

Completed web development training covering HTML, CSS, basic JavaScript, responsive design, and web application development concepts.

Full Stack Web Development Training

Completed full stack web development training with front-end and back-end development concepts, database integration, and web application deployment.

ACADEMIC PROJECTS

Speech-to-Text Transcription System – Built an AI-powered speech recognition application using Python, TensorFlow, Flask, Librosa, and SciPy.

Smart Accident Detection and Emergency Human Injury Alert System – Developed a computer vision-based accident detection system using Python, TensorFlow, OpenCV, and NumPy.

EDUCATION

B.E. Computer Science and Engineering | University College of Engineering, Thirukkuvalai | 2022–2026 | CGPA: 8.3/10
